

# Zeotech Mini Autumn

**Zeolite silicate potassium fertilizer with 19% zeolite  
Summer & Autumn turf fortifier and stress relief formula.  
NPK 7-5-14+4Fe**

## BENEFITS

- Feeds grass for 8 weeks, fortifying the root and vascular system. Prevents roots mass reduction in stress periods
- Strengthens bent, meadowgrass, dwarf bermuda and fine fescue cell walls, increasing resistance to wear, heat and cold
- In stress periods prevents yellowing of all turf surfaces with high presence of *Poa annua*
- Increases agronomical resistance against diseases, hardening leaves, shoots and roots tissues
- With a 4% iron formula, keeps color all winter long substituting nitrogen applications. Reduces moss and anticipates Spring green-up
- Environmentally friendly. The presence of Zeotech 300® and humic acids, permits the slow release of potassium and nitrogen, in function plant's real needs, eliminating losses on groundwater

## TECHNICAL FEATURES

7 % Nitrogen (N): 7 % ammonia  
5 % Soluble phosphorus pentoxide (P<sub>2</sub>O<sub>5</sub>)  
14 % Soluble potassium oxide (K<sub>2</sub>O)  
33 % Sulphur trioxide (SO<sub>3</sub>) soluble  
4 % Iron (Fe) water soluble  
19 % Zeotech 300® activated chabazite  
1 % Humic Acids  
Contains Lignin Sulfonate  
Granular size: 0,8 – 1,2 mm

Microgranular potassium turf fertilizer. Contains an extraordinary high zeolite content that controls the gradual release of nitrogen and potassium independently from soil temperatures. Produces stronger cell walls and improves water movements inside the plant. Has the benefits of its main ingredient, the zeolitic silicate Zeotech 300: a very high cation exchange capacity and an outstanding water retention. Thanks to this, acts as a natural slow release fertilizer, feeding turf gradually and independently from soil temperature. Contains Formula GP, a proprietary root&shoots growth promoting formula, with lignin sulfonates and humic acids. In the soil improves solubility and assimilation of water and nutrients (iron in particular), increasing microbial life. In the plant enhances metabolic and photosynthetic enzymatic activity, promoting a bigger root mass and density.

## APPLICATION METHODS

As potassium anti-stress supplement:

Autumn-Winter ( November-December): 35 – 40 gr./m<sup>2</sup>

Late Spring-Summer (mid May-June, July): 30 gr./m<sup>2</sup>

Irrigate for about ten minutes after application

**PACKAGING:** 20 kg bags on 1000 kg pallets

**Herbotech®**
