

Zeowet

**Zeolite silicate sand soaked with Herbalat natural surfactant and calcium.
Regulates moisture and cures Superficial Fairy Rings
and Localized Dry Spots**

BENEFITS:

- Granular soil hydratant and water retainer. Thanks to its re-wetting capacity, increases H₂O availability, distribution and movement in the root-zone. Reduces irrigation up to 30%
- It is soaked with a 100 % natural wetting agent that increases soil moisture and also feeds soil's micro-organisms
- Excellent in the fast recovery of green areas with dry spot (LDS); works in synergy with liquid wetting agents
- Speeds up turf recovery from Superficial Fairy Rings hydrophobic conditions
- Formulated with soluble calcium, displaces sodium and cures salt related problems. Improves soil structure and water infiltration (flocculant)
- Facilitates water exchanges between soil and plant. Recovers turf from stresses caused by heat and drought
- Improves plant's xylematic activity and foliar transpiration; works in synergy with Herbafer Rubisco foliar treatments

TECHNICAL FEATURES

99,40% Zeolite Zeotech 300[®] (0,7-2,0 mm. diam.)
0,50 % Herbalat organic bio-surfactant
0,10 % Calcium formiate
Bulk density: 0,91 kg/liter
Granular Size: 0,7mm - 2,0 mm

Spreadable granular soil conditioner made of Zeotech 300[®] chabazitic silicate, soaked with Herbalat, a proprietary protein soil surfactant-hydratant derived from milk, 100% biological and soluble Calcium. Ideal amendment for all turf suffering from water unbalances, maximizes soil water absorption and holding capacity. Zeowet has all the benefits of its main ingredient, zeolite Zeotech 300[®]: a very high cation exchange capacity (CSC) and outstanding water retention

APPLICATION METHODS

As topdressing and as curative of dry patches (better if in conjunction with verticutting, micro spiking or micro coring), directly on turf's surface : 1 kg / m². Lightly incorporate and irrigate
On hydrophobic soils and for Fairy Ring control , after deep coring: 3.0 kg / m².
Fill in open holes and level with sand. Irrigate

PACKAGING:

Zeowet is available in 20 kg bags and 500 kg big bags (0,46 CM)
